30 Seconds

The Washington Department of Ecology and the U.S. Environmental Protection Agency plan to issue a dangerous waste storage permit to Occidental Chemical Corporation of Tacoma, Washington. The permit will authorize the storage in containers and in an enclosed waste pile of dangerous wastes, as well as require a pump and treat program for contaminated groundwater.

A copy of the draft permit will be available for review at Ecology's office in Olympia, EPA's office in Seattle, and the Main Branch of the Tacoma Public Library.

Interested persons may submit written comments or a request for a public hearing on the draft permit to Ecology or EPA no later than August 15, 1988. For more information please contact EPA at (206) 442-1099.
